English	Fluent (C2)	Swedish	Elementary (A1)

Hobbies and interests

Powerlifting

Music (playing the guitar [classical, bass and acoustic], singing, composing, songwriting)

Running

Digital art

Gaming

Work experience - continued

Panda ABC — **ESL teacher**, *My primary responsibilities were to teach with a large dose of enthusiasm, as opposed to a traditional, strict, test-based teaching approach. I organized classes, prepared lessons for the students and wrote feedback reports after each and every class. Classes were held online, through a proprietary software owned by the company. Class sizes ranged from 1-6 and the ages from 1-16.*

Bibo Global Opportunity — **ESL teacher**, *I was more of an online friend, rather than a teacher in BGO. I taught (mostly) conversational English to a large number of people from all around the world (primarily Japan). The job was great, because it gave me the opportunity to gain insight on life outside of Bosnia.*

PwC — **Risk Assurance Associate Intern**, *As an intern at Price, I worked in the Risk Assurance department as an IT auditor.*
My responsibilities were:
1. Assisting my mentor and my team leader in various tasks;
2. Resolving both trivial and complex computer-related problems;
3. Understanding business processes;
4. Processing and analysing client data by obtaining and verifying audit data, preparing and editing final reports;
5. Maintaining active communication with clients and colleagues;
6. Prioritization of goals in order to catch up with deadlines; 7. Performing various tasks related to CyberSec (vulnerability testing, password policy testing, physical security testing, etc.).

Fun fact: this CV was written in Latex. The source code can be found on my Github.
